Evaluation of teammates

If you are asked to allocate 12 points among the team members based on their contribution to the project, how would you allocate the points?

Example, if your team has 3 members and everyone evenly contributed to the work, you should check 4 for Teammate 1, 2, and 3 and leave Teammate 4 blank.

Example 2, if your team has 4 members. member 3 did not contribute the work at all, member 1 had the biggest contribution, one such way to allocate the point is

* Member 1: 6

* Member 2: 3

* Member 3: 0

* Member 4: 3

See teammate ID in column C of the form [here](#)
